PYTHON INTERNSHIP

TASK/PROJECT

COMPLETE ANY 2 TASK
AS PER YOUR CHOICE

INTERN ARMY

INTERN ARMY

TASK 1. ONLINE QUIZ SYSTEM

DESIGN AN ONLINE QUIZ PLATFORM WITH A VARIETY OF QUESTION TYPES (MULTIPLE CHOICE, TRUE/FALSE, ETC.), SCORING, AND USER PROFILES.

INTERN ARMY
· SINCE 2023 ·

TASK 2. CHATBOT

Create a chatbot using Python, which can communicate with users, answer basic queries, or perform simple tasks based on user input. Libraries like NLTK or ChatterBot could be helpful.

TASK 3. VIRTUAL ASSISTANT

Create a basic virtual assistant similar to Siri or Alexa. It could perform tasks like providing weather updates, setting reminders, answering questions, etc. You might use speech recognition libraries like Speech Recognition for voice input.

TASK 4. FILE ENCRYPTION/DECRYPTION TOOL

Create a tool that encrypts and decrypts files using different encryption algorithms. This project can involve cryptography concepts and libraries like cryptography or PyCryptodome.

THANK YOU
